EXPERIENCE

Application Security Analyst (Contract) — John's Creek, GA
Macy's Technology — Jan 2026 - Present

- Supported migration efforts from Snyk to GitLab Ultimate through security integration validation, automation workflows, and vulnerability data analysis.
- Developed Python automation scripts integrating GitLab and Snyk APIs to support vulnerability management and AppSec reporting workflows.
- Automated repository inventory, pipeline metadata collection, and security reporting across enterprise GitLab environments.
- Developed security reporting workflows for managers, executives, and embedded engineering teams to improve vulnerability visibility and remediation tracking.
- Supported SBOM and dependency analysis initiatives through API-driven data collection and reporting automation.

Security Automation & AppSec Reporting
Python, GitLab API, Snyk API, GraphQL, Excel Reporting

- Developed automation workflows to collect repository inventory, pipeline metadata, vulnerability metrics, and scanner enablement data across enterprise GitLab environments.
- Built CSV and Excel reporting solutions for managers and engineering leadership to support remediation tracking and security visibility.
- Integrated GitLab and Snyk API data sources to support AppSec operations and vulnerability management initiatives.

EDUCATION

Kennesaw State University — Kennesaw, GA
B.B.A. Information Security and Assurance | Magna Cum Laude — Aug 2022 - Dec 2025
Cumulative GPA: 3.92/4.0; President's List (5x), Dean's List (1x)
Study Abroad Program – London, UK

TECHNICAL SKILLS

Security: Vulnerability Management, Application Security (AppSec), Application Security Testing, DevSecOps, SBOM Analysis, Secure SDLC, CI/CD Pipeline Security, Pipeline Security Scanning, Vulnerability Assessment
Tools & Platforms: Snyk, GitLab Ultimate, GitLab CI/CD, Linux, Windows, Microsoft 365, Wireshark
Programming & Automation: Python Automation, Python, Java, SQL, REST API, REST APIs, GraphQL, Bash, JSON, CSV Data Processing
Data & Reporting: Excel, Pivot Tables, PostgreSQL, Data Analysis
Development & Cloud: Git, GitHub, GCP, AWS, Azure

CERTIFICATIONS & TRAINING

Google Cloud Functions — Udemy
GraphQL & API Development — Udemy
Precinct Certified User — WitFoo
